

THE OFFICIAL AHA ACLS LEARNING PROGRAM

HeartCode ACLS offers an alternative to the traditional ACLS class. In today's fast-paced environment, it is not always easy for healthcare providers to keep their certifications current. HeartCode ACLS offers a convenient method for obtaining an American Heart Association ACLS certification. Providers can complete the course at their own pace, on their own schedule, saving time and money.

CME/CE/CEH CREDIT INCLUDED:

Continuing Medical Education This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American Heart Association and Laerdal Medical Corporation. The American Heart Association is accredited by the ACCME to provide continuing medical education for physicians.

The American Heart Association designates this educational activity for a maximum of 12 category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

Continuing Education - Nurses This program (03-NC-560) has been approved by an AACN-approved provider (11527) under established AACN guidelines for 14 contact hours, CERP Category A.

Continuing Education - Pharmacists The American Heart Association is accredited by the American Council on Pharmaceutical Education as a provider of continuing pharmaceutical education. ACPE Credit: 12 Contact Hours or 1.2 CEUs. Universal Program Number: 256-999-03-082-H01.

Continuing Education Accreditation - EMS Providers This continuing education activity (04-AMHA-F3-0002) is approved by the American Heart Association, an organization accredited by the Continuing Education Coordinating Board for Emergency Medical Services (CECBEMS) for up to 14 CEHS.

Amery Regional Medical Center is an authorized training center for the American Heart Association. All information within this brochure is a part of the official AHA ACLS learning program.

EXTENSIVE REFERENCE MATERIAL

With over 20 hours of educational content, HeartCode ACLS contains all of the lessons from the ACLS texts conveniently referenced. Providers can review all of the material from start to finish or focus on the topics they feel they need to spend more time on. HeartCode ACLS includes all of the exams required for successful completion of the ACLS Program:

- Static Rhythm Recognition
- ACLS Written Exam
- AED Simulation
- Core Case Simulations

REALISTIC PATIENT SCENARIOS

HeartCode ACLS now includes microsimulation technology that improves both the educational content and user-friendliness of the program.

Providers are presented with realistic patient cases and are required to interact with the program to assess the patient, formulate a treatment plan based on the ACLS algorithm, and effect treatment. This technology allows the simulated patient to react accordingly to the treatment provided—good or bad—in order to provide a learning experience, not just an evaluation.

In addition to standard drop-down menus, the on-screen simulations allow the provider to interact directly with the scene images to increase the realism of the scenario.

INTELLIGENT DEBRIEFING

Upon completion of a given scenario, the provider is presented with a detailed debriefing screen. This debriefing is more than just a list of events ending with a score. Providers are presented with an account of their actions, calling out both correct and incorrect actions. Suggestions for improvement are offered and all appropriate reference material is hyperlinked to the debriefing, allowing immediate remediation at the conclusion of the scenario.

The debriefing screen details incorrect and correct actions, provides suggestions for improvement, and incorporates direct links to the appropriate reference material.

SOFTWARE REQUIREMENTS

- Internet Explorer 5 or later
- Windows 95/98
- Windows 2000
- Windows NT 4.0 (Service Pack 4 or later)
- Windows ME
- Windows XP

HARDWARE REQUIREMENTS

- Pentium 166 MHz (300 MHz recommended)
- 32 MB RAM (64 MB recommended)
- 650 MB hard-disk space
- 256-bit color (recommended)
- Display adapter/sound adapter
- Mouse or compatible device
- CD-ROM

CERTIFICATION...

1. Get access to the AHA HeartCode ACLS software by registering on ARMC's website
2. Register online at www.amerymedicalcenter.org
3. Complete the courseware (Part 1 - MUST be completed BEFORE Part 2)
4. Complete a skills check off (Part 2 - Live skills dates available on ARMC's website)
5. Get your card

CLASS SIZE IS LIMITED
